

Animal behaviour

- 603 Exposure to infant scent lowers serum testosterone in father common marmosets (*Callithrix jacchus*)
S. L. Prudom, C. A. Broz, N. Schultz-Darken, C. T. Ferris, C. Snowdon & T. E. Ziegler
- 606 Reproductive suppression in female cooperatively breeding cichlids
D. Heg
- 610 Convict cichlids benefit from close proximity to another species of cichlid fish
T. K. Lehtonen
- 613 Ants under crowded conditions consume more energy
T. T. Cao & A. Dornhaus
- 616 Why do fiddler crabs build chimneys?
R. A. Slatyer, E. S. Y. Fok, R. Hocking & P. R. Y. Backwell
- 619 Circadian flight schedules in night-migrating birds caught on migration
T. Coppack, S. F. Becker & P. J. J. Becker
- 623 Implications of multiple mating for offspring relatedness and shoaling behaviour in juvenile guppies
J. P. Evans & J. L. Kelley
- 627 Optimality in a partitioned task performed by social insects
M. Burd & J. J. Howard
- 630 Hitting the buffers: conspecific aggression undermines benefits of colonial breeding under adverse conditions
K. Ashbrook, S. Wanless, M. P. Harris & K. C. Hamer
- 634 We know that the wasps 'know': cryptic successors to the queen in *Ropalidia marginata*
A. Bhadra & R. Gadagkar
- 638 Helping behaviour and regard for others in capuchin monkeys (*Cebus apella*)
J. L. Barnes, T. Hill, M. Langer, M. Martinez & L. R. Santos
- 641 Predation increases acoustic complexity in primate alarm calls
C. Stephan & K. Zuberbühler
- 645 Learning decreases heterospecific courtship and mating in fruit flies
R. Dukas
- 648 Testing Thayer's hypothesis: can camouflage work by distraction?
M. Stevens, J. Graham, I. S. Winney & A. Cantor
- 651 Signaller: receiver coordination and the timing of communication in Amazonian birds
D. A. Luther
- 655 Conservation and conflict between endangered desert fishes
J. M. Gumm, J. L. Snekser & M. Itzkowitz

Evolutionary biology

- 659 Sea lamprey *Petromyzon marinus*: an exception to the rule of homing in anadromous fishes
J. Waldman, C. Grunwald & I. Wirgin
- 663 Host manipulation as a parasite transmission strategy when manipulation is exploited by non-host predators
O. Seppälä & J. Jokela
- 667 Differential selection according to the degree of cheating in a status signal
S. Nakagawa, J.-W. Lee, B. K. Woodward, B. J. Hatchwell & T. Burke
- 670 Queen number influences the timing of the sexual production in colonies of *Cardiocondyla* ants
M. Suefujii, S. Cremer, J. Oettler & J. Heinze
- 674 Genetic covariation between effectiveness and cost of defence in aphids
C. Vorburger, A. Gouskov & S. von Burg
- 677 The phylogenetic affinities of Crossley's babbler (*Mystacornis crossleyi*): adding a new niche to the vanga radiation of Madagascar
U. S. Johannson, R. C. K. Bowie, S. J. Hackett & T. S. Schulenberg

Global change biology

- 681 Methane emissions by alpine plant communities in the Qinghai-Tibet Plateau
G. Cao, X. Xu, R. Long, Q. Wang, C. Wang, Y. Du & X. Zhao
- 685 Avian migrants adjust migration in response to environmental conditions *en route*
A. P. Tøttrup, K. Thorup, K. Rainio, R. Yosef, E. Lehtikoinen & C. Rahbek
- 689 Effects of naturally acidified seawater on seagrass calcareous epibionts
S. Martin, R. Rodolfo-Metalpa, E. Ransome, S. Rowley, M.-C. Buia, J.-P. Gattuso & J. Hall-Spencer

Marine biology

- 693 Opinion piece. The dangers of ignoring stock complexity in fishery management: the case of the North Sea cod
W. F. Hutchinson
- 696 A threat to coral reefs multiplied? Four species of crown-of-thorns starfish
C. Vogler, J. Benzie, H. Lessios, P. Barber & G. Wörheide
- 700 Sex-linked markers and microsatellite locus duplication in the cichlid species *Oreochromis tanganicae*
A. Cnaani & T. D. Kocher
- 704 Natural beaches confer fitness benefits to nesting marine turtles
D. A. Pike
- 707 Seasonal variation in sonic muscles in the fawn cusk-eel *Lepophidium profundorum*
T. K. Nguyen, H. Lin, E. Parmentier & M. L. Fine

Neurobiology

- 711 Reliable coding of small, behaviourally relevant interaural intensity differences in a pair of interneurons of an insect
J. Stradner and H. Römer

Palaeontology

- 715 First fossil gravid turtle provides insight into the evolution of reproductive traits in turtles
D. K. Zelenitsky, F. Therrien, W. G. Joyce & D. B. Brinkman
- 719 Life history of a basal bird: morphometrics of the Early Cretaceous *Confuciusornis*
L. M. Chiappe, J. Marugán-Lobón, S. Ji & Z. Zhou
- 724 The Early Cambrian tommotiid *Micrina*, a sessile bivalved stem group brachiopod
L. E. Holmer, C. B. Skovsted, G. A. Brock, J. L. Valentine & J. R. Paterson
- 729 Fossil quality and naming dinosaurs
M. J. Benton
- 733 The first 50 Myr of dinosaur evolution: macroevolutionary pattern and morphological disparity
S. L. Brusatte, M. J. Benton, M. Ruta & G. T. Lloyd

Pathogen biology

- 737 Human plague in the USA: the importance of regional and local climate
T. B. Ari, A. Gershunov, K. L. Gage, T. Snäll, P. Ettestad, K. L. Kausrud & N. Chr. Stenseth

Physiology

- 741 Immune activation suppresses plasma testosterone level: a meta-analysis
J. J. Boonekamp, A. H. F. Ros & S. Verhulst
- 745 The optical sensitivity of compound eyes: theory and experiment compared
R. Frederiksen & E. J. Warrant

Population ecology

- 748 Network scaling reveals consistent fractal pattern in hierarchical mammalian societies
R. A. Hill, R. A. Bentley & R. I. M. Dunbar

Population genetics

- 752 Temporal fluctuations of Y-chromosomal variation in *Bos taurus*
E. Svensson & A. Götherström
- 755 Being abundant is not enough: a decrease in effective population size over eight generations in a Norwegian population of the seaweed, *Fucus serratus*
J. A. Coyer, G. Hoarau, K. Sjøtun & J. L. Olsen
- 758 Elevated levels of expression associated with regions of the *Drosophila* genome that lack crossing over
P. R. Haddrill, F. M. Waldron & B. Charlesworth
- 762 Erratum

Volume title page and table of contents

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science

Registered Charity No 207043
