

INDEX TO VOL. CV. (A)

- Absorption by luminous mercury vapour (Metcalf and Venkatesachar), 520.
 Absorption spectrum of naphthalene vapour (Henri and László), 662.
 Acoustical energy, degradation of (Hart), 80.
 Address of President, 1923, Sir C. Sherrington, 1.
 Ahmad (N.) Absorption of Hard γ -Rays by Elements, 507.
 Alpha particles, scattering of, by light nuclei (Bieler), 434.
 Aragonite, structure of (Bragg), 16.
 Atmospheric pollution and potential gradient at Kew (Chree and Watson), 311.
 Balmer lines, doublet separation of (Shrum), 259.
 Bangham (D. H.) and Burt (F. P.) The Behaviour of Gases in Contact with Glass Surfaces, 481.
 Barratt (S.) The Absorption Spectra of Mixed Metallic Vapours, 221.
 Bates (L. F.) and Rogers (J. S.) Particles of Long Range emitted by the Active Deposits of Radium, Thorium and Actinium, 97; Particles of Long Range from Polonium, 360.
 β -ray Spectra, energies of groups in (Ellis and Skinner), 60; Interpretation of (Ellis and Skinner), 185.
 β -ray spectrum of radium B and C (Ellis and Skinner), 165.
 Bieler (E. S.) The Large-angle Scattering of α -Particles by Light Nuclei, 434.
 Bone (W. A.), Newitt (D. M.) and Townend (D. T. A.) Gaseous Combustion at High Pressures. Part IV—The Influence of Varying Initial Pressures upon the Rate of Pressure Development and the Activation of Nitrogen in Carbon Monoxide-Air Explosions, 406.
 Bone (W. A.), Pearson (A. R.) and Quarendon (R.) Researches on the Chemistry of Coal.—Part III. The Extraction of Coals by Benzene under Pressure, 608.
 Bragg (W. L.) The Structure of Aragonite, 16; The Refractive Indices of Calcite and Aragonite, 370.
 Brooks (C. E. P.) The Difference-Periodogram—a Method for the Rapid Determination of Short Periodicities, 346.
 Brotherton (M.) Experiments on the Emission of Electrons under the Influence of Chemical Action, 468.
 Brown (A. C.) Obituary Notice of, i.
 Brunt (D.) The Dynamics of Cyclones and Anticyclones regarded as Atmospheric Vortices, 70.
 Burt (F. B.) *See* Bangham and Burt.
 Calcite and aragonite, refractive indices of (Bragg), 370.
 Catalytic and induced reactions (Goard and Rideal), 135, 148.
 Chree (C.) and Watson (R. E.) Atmospheric Pollution and Potential Gradient at Kew Observatory, 1921 and 1922, 311.
 Coal, chemistry of—extraction of coals by benzene (Bone and others), 608.
 Coal gas, sulphur studies in—Removal of CS by nickel catalyst (Evans and Stanier), 626.
 Crystal-axes in single-crystal aluminium bars, determination by X-rays (Müller), 500.
 Cyclones and anticyclones, dynamics of (Brunt), 70.

- Detonation of explosives, velocity of (Wagstaff), 282.
- Difference-periodogram for determining short periodicities (Brooks), 346.
- Diffusion in gels, determination of coefficients by chemical analysis (Mann), 270.
- Dixon (H. B.) and Greenwood (G.) On the Velocity of Sound in Gases and Vapours, and the Ratio of the Specific Heats, 199.
- Drying process, discontinuity of (Fisher), 571.
- Elastic strip, stability under shearing forces (Southwell and Skan), 582.
- Elastic theory and impact of bars (Wagstaff), 544.
- Electron emission, thermodynamics of (Richardson), 387.
- Electrons, emission of, under influence of chemical action (Brotherton), 468.
- Ellis (C. D.) and Skinner (H. W. B.) The Absolute Energies of the Groups in the Magnetic β -ray Spectra, 60; A Re-investigation of the β -ray Spectrum of Radium B and Radium C, 165; The Interpretation of β -ray Spectra, 185.
- Evans (E. V.) and Stanier (H.) Sulphur Studies in Coal Gas.—I. The Removal of Carbon Bisulphide by a Nickel Catalyst, 626.
- Fisher (E. A.) The Discontinuity of the Drying Process, 571.
- Fowler (A.) The Series Spectrum of Ionised Carbon (C II), 299.
- Gamma rays, absorption of by elements (Ahmad), 507.
- Gaseous combustion at high pressures (Bone and others), 406.
- Gases, behaviour of, in contact with glass surfaces (Bangham and Burt), 481.
- Goard (A. K.) and Rideal (E. K.) Catalytic and Induced Reactions. Part I.—Oxidation in the Presence of Salts of Cerium, 135; Part II.—Oxidation in the Presence of Salts of Iron, 148.
- Grace (S. F.) A Spherical Source in a Rotating Liquid, 532.
- Greenwood (G.) See Dixon and Greenwood.
- Hardy (G. H.) and Landau (E.) The Lattice Points of a Circle, 244.
- Harker (J. A.) Obituary Notice of, xi.
- Hart (M. D.) On the Degradation of Acoustical Energy, 80.
- Havelock (T. H.) Optical Dispersion and Selective Reflection, with Application to Infra-red Natural Frequencies, 488.
- Henri (V.) and Lászlò (H. de) The Analysis of the Absorption Spectrum of Naphthalene Vapour—Structure and Activation of the Molecule, 662.
- Herroun (E. F.) See Wilson and Herroun.
- Hirata (H.) Constitution of the X-ray Spectra belonging to the L Series of the Elements, 40.
- Howe (A. B.) See Partington and Howe.
- Impacts of bars, experiments on duration of (Wagstaff), 544.
- Ionization, further studies in (Smyth), 116.
- Johnson (R. C.) Ultra-violet Emission Bands associated with Oxygen, 683.
- Jones (J. H.) The Quantum Theory and the Dielectric Constant, 650.
- Kapitza (P. L.) A Method of producing Strong Magnetic Fields, 691.
- Landau (E.) See Hardy and Landau.
- Lászlò (H. de) See Henri and Lászlò.
- Lattice points of a circle (Hardy and Landau), 244.
- Liquid, spherical source in rotating (Grace), 532.

- Sound velocity in gases and vapours and ratio of specific heats (Dixon and Greenwood), 199.
- Southwell (R. V.) and Skan (S. W.) On the Stability under Shearing Forces of a Flat Elastic Strip, 582.
- Specific heats of nitrogen and oxygen (Partington and Howe), 225.
- Spectra, absorption, of mixed metallic vapours (Barratt), 221.
- Spectra, energies of groups in magnetic β -ray (Ellis and Skinner), 60.
- Spectra, interpretation of β -ray (Ellis and Skinner), 185.
- Spectra, X-ray, belonging to L series (Hirata), 40.
- Spectrum, absorption, of naphthalene vapour (Henri and László), 662.
- Spectrum, β -ray of radium B and C (Ellis and Skinner), 165.
- Spectrum, series, of ionized carbon (Fowler), 299.
- Stanier (H.). See Evans and Stanier.
- Succinic acid, anhydride and succinimide, crystalline structure of (Yardley), 451.
- Tizard (T. H.) Obituary notice of, vi.
- Townend (D. T. A.) See Bone and others.
- Ultra-violet emission bands associated with oxygen (Johnson), 683.
- Venkatesachar (B.) See Metcalfe and Venkatesachar.
- Wagstaff (J. E. P.) An Electrical Method of Determining the Velocity of Detonation of Explosives, 282; Experiments on the Duration of Impacts, mainly of Bars with Rounded Ends, in Elucidation of the Elastic Theory, 544.
- Watson (R. E.) See Chree and Watson.
- Wilson (E.) and Herroun (E. F.) On the Electrical Conductivity of Magnetite, 334.
- X-ray spectra belonging to L series (Hirata), 40.
- X-rays, determination of crystal-axes in aluminium bars by (Müller), 500.
- Yardley (K.) The Crystalline Structure of Succinic Acid, Succinic Anhydride and Succinimide, 451.
