

Editorial Board

- J. T. Stuart**, Editor, Department of Mathematics, Imperial College
- S. J. Bell Burnell**, Department of Astrophysics, University of Oxford
- C. G. Caro**, Department of Bioengineering, Imperial College
- J. R. Cash**, Department of Mathematics, Imperial College
- J. H. Coates**, Department of Pure Mathematics and Mathematical Statistics, University of Cambridge
- A. G. Constantinides**, Department of Electrical and Electronic Engineering, Imperial College
- W. Craig**, Department of Mathematics and Statistics, McMaster University
- P. J. Davis**, Division of Applied Mathematics, Brown University
- S. H. Davis**, Department of Engineering Sciences and Applied Mathematics, Northwestern University
- R. J. Donnelly**, Department of Physics, University of Oregon
- A. K. Ekert**, Department of Physics, University of Oxford
- A. S. Fokas**, Department of Applied Mathematics and Theoretical Physics, University of Cambridge
- L. B. Freund**, Division of Engineering, Brown University
- R. Jeltsch**, Seminar für Angewandte Mathematik, ETH-Zürich
- C. Jordan**, Department of Physics, University of Oxford
- L. P. Hughston**, Department of Mathematics, King's College London
- V. S. Isham**, Department of Statistical Science, University College London
- J. T. Jenkins**, Theoretical and Applied Mechanics, Cornell University
- T. W. B. Kibble**, Department of Physics, Imperial College
- J. T. C. Liu**, Division of Engineering, Brown University
- R. C. McPhedran**, Department of Theoretical Physics, University of Sydney
- L. Mahadevan**, Division of Engineering and Applied Sciences, Harvard University
- N. S. Manton**, Department of Applied Mathematics and Theoretical Physics, University of Cambridge
- P. A. Martin**, Department of Mathematical and Computer Sciences, Colorado School of Mines
- H. K. Moffatt**, Department of Applied Mathematics and Theoretical Physics, University of Cambridge
- T. Mullin**, Department of Physics and Astronomy, University of Manchester
- H. Ockendon**, OCIAM, Mathematical Institute, University of Oxford
- A. N. Norris**, Department of Mechanical and Aerospace Engineering, Rutgers University
- D. G. Pettifor**, Department of Materials, University of Oxford
- S. Sarkar**, Department of Physics, King's College London
- J. Sivaloganathan**, Department of Mathematical Sciences, University of Bath
- J. Stark**, Department of Mathematics, Imperial College
- L. N. Trefethen**, Computing Laboratory, University of Oxford
- J. G. Williams**, Department of Mechanical Engineering, Imperial College

Journal Production Manager: Matthew Llewellyn
Cover design: Andrew Watts

6–9 Carlton House Terrace, London SW1Y 5AG, UK

Submission. Authors should prepare papers in accordance with our Instructions to Authors (see www.journals.royalsoc.ac.uk) and submit them electronically via the Internet. Visit our Web site for guidance on preparation. Please note that only PDF will be used for the peer-review process.

Scope. Original papers on any aspect of the mathematical, physical and engineering sciences will be considered, of the following types:

- important, new research findings;
- interesting reviews that shed new light on a particular subject or field;
- short 'Rapid Communications' (up to 10 printed pages); these will be published within 4 months of acceptance;
- papers of an interdisciplinary nature.

The maximum limit is 20 printed pages (about 640 words or two figures per page). Papers over this limit will be considered, but will also be subject to page charges.
