AIMS AND SCOPE

Proc. R. Soc. A publishes research articles across the mathematical, physical and engineering sciences. The emphasis is on high-quality, original, fundamental articles of interest to a wide range of scientists, in emerging and interdisciplinary areas as well as established disciplines.

COPYRIGHT © 2013 The Royal Society

Except as otherwise permitted under the Copyright, Designs and Patents Act, 1988, this publication may only be reproduced, stored or transmitted, in any form or by any means, with the prior permission in writing of the publisher, or, in the case of reprographic reproduction, in accordance with the terms of a licence issued by the Copyright Licensing Agency. In particular, the Society permits the making of a single photocopy of an article from this issue (under Sections 29 and 38 of the Act) for an individual for the purposes of research or private study.
