CONTAINING PAPERS OF A BIOLOGICAL CHARACTER

LONDON :

HARRISON AND SONS, LTD., PRINTERS IN ORDINARY TO HIS MAJESTY,

ST. MARTIN'S LANE.

CONTENTS.

SERIES B. VOL. CVIII.

No. 755—April 2, 1931.

	PAGE
Studies on Epithelial Phagocytosis—I. By H. M. Carleton. Communicated by Sir Charles Sherrington, F.R.S. (Plates 1 and 2).....	1
The Pigmentary Effector System. VI.—The Dual Character of Endocrine Co-ordination in Amphibian Colour Change. By L. Hogben and D. Slome. Communicated by H. H. Dale, Sec. R.S. (Plates 3 and 4).....	10
The Ureides of <i>p</i> -Aminophenylstibinic Acid. By W. H. Gray, J. W. Trevan, H. W. Bainbridge and A. P. Attwood. Communicated by H. H. Dale, Sec. R.S.....	54
On the Optimum Hydrogen Ion Concentration and Temperature of the Style Enzyme of <i>Pecten maximus</i> . By A. Graham. Communicated by E. J. Allen, F.R.S.	84
The Physiological Action of Cyanide.—I. The Effects of Cyanide on the Respiration and Sugar Content of the Potato at 15° C. By C. S. Hanes and J. Barker. Communicated by Dr. F. F. Blackman, F.R.S.....	95
The Antiseptic and Trypanocidal Action of certain Styryl and Anil Benzthiazole Derivatives. By C. H. Browning, F.R.S., J. B. Cohen, F.R.S., S. Ellingworth and R. Gulbransen.....	119
Some Aliphatic and Aromatic Amino Derivatives of α -Quinoline Methiodide. By J. B. Cohen, F.R.S., K.E. Cooper and P. G. Marshall.....	130
The Reproductive Processes of Certain Mammals. Part I.—The Oestrous Cycle of the Chinese Hamster (<i>Cricetulus griseus</i>). By A. S. Parkes. Communicated by C. L. Evans, F.R.S. (Plates 5-7).....	138
Heat and Osmotic Change in Muscular Contraction without Lactic Acid Formation. By A. V. Hill, F.R.S., and J. L. Parkinson.....	148
A Spectrographic Analysis of Animal Tissues. By H. M. Fox and H. Ramage. Communicated by J. S. Gardiner, F.R.S. (Plate 8).....	157
The Adsorption of Substances by Fuller's Earth. By H. J. Phelps. (Abstract). Communicated by C. N. Hinshelwood, F.R.S.....	174

No. 756—May 1, 1931.

	PAGE
The Effect of Light on the Oxidation of Fats. By C. H. Lea. Communicated by Sir William Hardy, F.R.S.....	175
The Delayed Lethal Effect of Radium on Tissue Cultures in vitro—Comparison of Continuous and Spaced Radiation. By F. G. Spear. Communicated by Sir Frederick Andrewes, F.R.S.	190
The Reaction of the Dental Pulp to Peripheral Injury of the Dentine. By E. W. Fish. Communicated by C. Lovatt Evans, F.R.S. (Plates 9–14).....	196
Experiments on Growth and Inhibition. I.—The Increase of Inhibition with Distance. By R. Snow. Communicated by A. G. Tansley, F.R.S.....	209
The Combination Curves, Hydrogen Ion Regulating Power and Dissociation Constants of Gelatin. By E. B. R. Prideaux. Communicated by F. S. Kipping, F.R.S....	224

No. 757—June 1, 1931.

A Comparative Study of the Brains in British Cyprinoids in Relation to their Habits of Feeding, with special reference to the Anatomy of the Medulla Oblongata. By H. M. Evans. Communicated by H. H. Dale, Sec. R.S.....	233
The Measurement of Actinic Erythema Produced by Ultra-Violet Radiation with Special Reference to the Latent Time. By M. D. Waller. Communicated by Sir Edward Sharpey-Schafer, F.R.S. (Plate 15A).....	258
The Relation between Energy Doses of Ultra-Violet Radiation and Actinic Erythema Produced. By M. D. Waller. Communicated by Sir Edward Sharpey-Schafer, F.R.S. (Plate 15B)	264
The Vital Staining of Normal and Malignant Cells. IV.—A Comparison of the Vital Staining of the Parenchyma Cells of the Liver with Acid and Basic Dyes. By R. J. Ludford. Communicated by J. A. Murray, F.R.S. (Plate 16.).....	270
Recovery Heat in Muscular Contraction without Lactic Acid Formation. By McK. Cattell, T. P. Feng, W. Hartree, A. V. Hill, F.R.S., and J. L. Parkinson	279
On the Return of Sensitiveness in Corneal Grafts in Rabbits. By J. W. T. Thomas. Communicated by T. Graham Brown, F.R.S.....	301
Experiments on Growth and Inhibition. Part II.—New Phenomena of Inhibition. By R. Snow. Communicated by A. G. Tansley, F.R.S.....	305
Respiration as a Factor in the Ionic Equilibria between Plant Tissues and External Solutions. By G. E. Briggs and A. H. K. Petrie. Communicated by F. F. Blackman, F.R.S.	317
Further Investigation of Sweating and Sweat. By A. G. R. Whitehouse. Communicated by J. S. Haldane, F.R.S.....	326
A Crystalline Antirachitic Substance. By T. C. Angus, F. A. Askew, R. B. Bourdillon, H. M. Bruce, R. K. Callow, C. Fischmann, J. St. L. Philpot, and T. A. Webster. Communicated by H. H. Dale, Sec. R.S.....	340

No. 758—July 1, 1931.

	PAGE
The Integration of Plant Behaviour. III.—The Effect of Gravity on the Growth of Roots. By Sir Frederick Keeble, C.B.E., F.R.S., M. G. Nelson and R. Snow	360
The Development of Various Strains of Leishmania in Chinese Sandflies. By E. Hindle. Communicated by H. H. Dale, Sec. R.S.....	366
Nitrite Formation by Soil Bacteria, other than Nitrosomonas. By D. W. Cutler and B. K. Mukerji. Communicated by Sir E. John Russell, F.R.S.....	384
Experiments on the Physiology and Genetics of the Smut Fungi. Cultural Characters. Part II.—The Effect of Certain External Conditions on their Segregation. By S. Dickinson. Communicated by E. J. Butler, F.R.S.	395
The Chromosome Constitution of the Pomoideæ. By A. A. Moffett. Communicated by Sir Daniel Hall, F.R.S. (Plate 17)	423
The Micelle Structure of the Wool Fibre. By J. B. Speakman. Communicated by E. K. Rideal, F.R.S. (Abstract)	446

No. 759—August 1, 1931.

Investigations on Mediterranean Kala Azar. I.—Introduction and Epidemiology. By S. Adler and O. Theodor. Communicated by H. H. Dale, Sec. R.S.....	447
Investigations on Mediterranean Kala Azar. II.—Leishmania infantum. By S. Adler and O. Theodor. Communicated by H. H. Dale, Sec. R.S. (Plate 18)	453
Investigations on Mediterranean Kala Azar. III.—The Sandflies of the Mediterranean Basin. Distribution and Bionomics of Sandflies in Catania and District. By S. Adler and O. Theodor. Communicated by H. H. Dale, Sec. R.S.....	464
Investigations on Mediterranean Kala Azar. IV.—Infection of Sandflies with Leishmania infantum. Natural Parasites of Wild Sandflies in Catania. Observations on Trypanosoma ptyodactyli Catouillard. By S. Adler and O. Theodor. Communicated by H. H. Dale, Sec. R.S.	481
Investigations on Mediterranean Kala Azar. V.—Distribution of Sandflies of the Major Group in Relation to Mediterranean Kala Azar. Summary and Conclusions. References. By S. Adler and O. Theodor. Communicated by H. H. Dale, Sec. R.S.....	494
The Reaction of Living Tissues to Homogeneous X-Radiation Produced by Crystal Diffraction. By Warnford Moppett. Communicated by J. T. Wilson, F.R.S. (Plate 19)	503
The Potential Difference Across the Surface Bounding the Unfertilised Egg of the Brown Trout. By R. J. Pumphrey. Communicated by J. Gray, F.R.S.	511
* The Heat-Tension Ratio in Prolonged Tetanic Contractions. By T. P. Feng. Communicated by A. V. Hill, F.R.S.....	522
* The Integration of Plant Behaviour. IV.—Geotropism and Growth-Substance. By Sir Frederick Keeble, F.R.S., M. G. Nelson and R. Snow.....	537

	PAGE
The Breakdown and Resynthesis of Phosphagen in Frozen and Thawed Muscles. By E. Kreps. Communicated by Sir William Hardy, F.R.S.....	545
The Oxygen Uptake of Frozen and Thawed Muscles. By E. C. Smith. Com- municated by Sir William Hardy, F.R.S.....	553
The Molecular Statistics of an Enzyme Action. By J. B. S. Haldane. Communicated by Sir Gowland Hopkins, P.R.S.....	559
The Chemistry of Irradiated Ergosterol. By A. Windaus. Communicated by H. H. Dale, Sec. R.S.	568
The Colorimetric Properties of the Spectrum. By J. Guild. (Abstract.) Com- municated by Sir Joseph Petavel, F.R.S.....	576
