

BIOGRAPHICAL MEMOIRS OF FELLOWS OF THE ROYAL SOCIETY

VOLUME 6 NOVEMBER 1960 PRICE £1. 10s. (Post extra)

(Bound in blue buckram with 19 half-tone plates)

Published by the Royal Society, Burlington House, Piccadilly, London, W. 1

CONTENTS

- ARBER, Agnes 1879–1960 Botanist and author on the philosophy of biological study.
By H. Hamshaw Thomas, F.R.S.
- CAULLERY, Maurice Jules Gaston Corneille 1868–1958 Zoologist. Past President of the Biological and Zoological Societies of France and also of the French Academy of Sciences. Formerly Professor of 'Évolution des Êtres Organisés' at Paris University and Director of the Marine Zoological Station at Wimereux.
By D. Keilin, F.R.S.
- EDWARDS, Charles Alfred 1882–1960 Metallurgist. Formerly Professor of Metallurgy at Manchester University and later Principal of University College, Swansea.
By L. B. Pfeil, F.R.S.
- EGERTON, Alfred Charles Glyn 1886–1959 Chemist. Emeritus Professor of Chemical Technology in the University of London and Director, Salters Institute of Industrial Chemistry.
By D. M. Newitt, F.R.S.
- HEILBRON, Ian Morris 1886–1959 Chemist. Formerly Director of the Brewing Industry Research Foundation and earlier Professor of Chemistry at Glasgow, Liverpool, Manchester and London Universities. During the 1939–45 war he played a leading part in the introduction of D.D.T. and collaborated in research on penicillin.
By A. H. Cook, F.R.S.
- JOLIOT, Jean Frederic 1900–1958 Physicist. Professor of the Faculty of Science of Paris and Director of the Curie Laboratory of the Institut du Radium. Nobel Laureate in Chemistry in 1953 jointly with Madame Irène Joliot-Curie for their discovery of artificial radioactivity.
By P. M. S. Blackett, F.R.S.
- JORDAN, Heinrich Ernst Karl 1861–1959 Entomologist, who worked at the British Museum's Zoological Museum at Tring, formerly Lord Rothschild's Museum, from 1893 until his death.
By N. D. Riley.
- VON LAUE, Max 1879–1960 Physicist. Formerly Director of the Fritz Haber Institute of Physical Chemistry in Berlin-Dahlem and previously Professor of Theoretical Physics at Berlin University. Nobel Laureate in Physics 1914 for his discovery of the diffraction of X-rays by crystals.
By P. P. Ewald, F.R.S.
- LINDERSTRØM-LANG, Kaj Ulrik 1896–1959 Biochemist. Professor and Head of the Chemical Department of Carlsberg Laboratory, Denmark.
By A. W. K. Tiselius, For.Mem.R.S.
- MARSHALL, Guy Anstruther Knox 1871–1959 Entomologist. Lately Director of the Imperial Institute of Entomology and previously adviser on Entomology to the Colonial Office.
By W. R. Thompson, F.R.S.
- MASON, Thomas Godfrey 1890–1959 Botanist. Formerly Professor of Botany at the Imperial College of Tropical Agriculture, Trinidad and later Plant Physiologist at the Cotton Research Station, Trinidad.
By T. A. Bennet-Clark, F.R.S.
- MENDEL, Bruno 1897–1959 Physiologist. Formerly Professor and Head of the Sub-Department for Cellular Physiology at the Banting Institute in Toronto and later Professor of Pharmacology in the University of Amsterdam.
By W. S. Feldberg, F.R.S.
- MILLS, William Hobson 1873–1959 Chemist. Emeritus Reader in Stereochemistry in the University of Cambridge, previously University Lecturer and earlier Head of the Chemical Department of the Northern Polytechnic Institute in North London.
By F. G. Mann, F.R.S.
- PANETH, Friedrich Adolf 1887–1958 Chemist. Director of the Max-Planck-Institut für Chemie, Mainz, previously Professor of Chemistry and Director of the Laboratories in the University of Durham.
By H. J. Emeléus, F.R.S.
- ROCKEFELLER, John Davison, Jr. 1874–1960 Philanthropist.
By G. W. Corner, For.Mem.R.S.
- SKINNER, Herbert Wakefield Banks 1900–1960 Physicist. Professor of Physics in the University of Liverpool and previously a Research Fellow at the University of Bristol.
By H. Jones, F.R.S.
- WILSON, Charles Thomson Rees 1869–1959 Physicist. Emeritus Professor of Natural Philosophy in the University of Cambridge. Nobel Laureate in Physics with A. H. Compton 1927 for their contributions to the understanding of the scattering of high energy photons. An authority on atmospheric electricity and thunderstorms.
By P. M. S. Blackett, F.R.S.

PROCEEDINGS OF THE ROYAL SOCIETY, SERIES B

No 955

9 May 1961

Vol 154

CONTENTS

	PAGE
The production and cure of metahypophyseal diabetes in the cat: a biochemical and electron-microscopical study with particular reference to the changes in the islets of Langerhans of the pancreas. By J. D. LEVER, M. K. JEACOCK and F. G. YOUNG, F.R.S. (Plates 13 to 19)	139
Synaptic structure and its alteration with environmental temperature: a study by light and electron microscopy of the central nervous system of lizards. By B. B. BOYCOTT, E. G. GRAY and R. W. GUILLERY. (Plates 20 to 27)	151
The structure of the muscle fibres in the translucent part of the adductor of the oyster <i>Crassostrea angulata</i> . By JEAN HANSON and J. LOWY. (Plates 28 to 37)	173
Inhibition of growth of hyphomycetous fungi by strong electrostatic fields. By D. ROSEN	197
The proteins associated with contraction in lamellibranch 'catch' muscle. By J. C. RÜEGG	209
On the tropomyosin-paramyosin system in relation to the viscous tone of lamellibranch 'catch' muscle. By J. C. RÜEGG	224
Visual pigments before and after extraction from visual cells. By H. J. A. DARTNALL	250
Some aspects of the structure and function of the nervous system of <i>Archachatina (Calachatina) marginata</i> (Swainson). By R. H. NISBET. (Plates 38 and 39)	267
The structure of bacterial flagella: the packing of the polypeptide chains within a flagellum. By R. E. BURGE. (Abstract)	288
