

<b>The impact of dietary restriction, intermittent feeding and compensatory growth on reproductive investment and lifespan in a short-lived fish</b> C. L. W. Inness & N. B. Metcalfe	1703
<b>Subtle cues of predation risk: starlings respond to a predator's direction of eye-gaze</b> J. Carter, N. J. Lyons, H. L. Cole & A. R. Goldsmith	1709
<b>Hummingbird responses to gender-biased nectar production: are nectar biases maintained by natural or sexual selection?</b> J. E. Carlson	1717
<b>Encoding choosiness: female attraction requires prior physical contact with individual male scents in mice</b> S. A. Ramm, S. A. Cheetham & J. L. Hurst	1727
<b>Viability of brown trout embryos positively linked to melanin-based but negatively to carotenoid-based colours of their fathers</b> C. Wedekind, A. Jacob, G. Evanno, S. Nusslé & R. Müller	1737
<b>Variation in contributions to teaching by meerkats</b> A. Thornton	1745
<b>Poor condition and infection: a vicious circle in natural populations</b> P. M. Beldomenico, S. Telfer, S. Gebert, L. Lukomski, M. Bennett & M. Begon	1753
<b>Local resource competition and local resource enhancement shape primate birth sex ratios</b> J. B. Silk & G. R. Brown	1761
<b>Ocean acidification may increase calcification rates, but at a cost</b> H. L. Wood, J. I. Spicer & S. Widdicombe	1767
<b>Community extinction patterns in coloured environments</b> L. Ruokolainen & M. S. Fowler	1775
<b>Environment-contingent sexual selection in a colour polymorphic fish</b> S. M. Gray, L. M. Dill, F. Y. Tantu, E. R. Loew, F. Herder & J. S. McKinnon	1785
<b>Multi-level trophic cascades in a heavily exploited open marine ecosystem</b> M. Casini, J. Lövgren, J. Hjelm, M. Cardinale, J.-C. Molinero & G. Kornilovs	1793
<b>Global patterns in marine dispersal estimates: the influence of geography, taxonomic category and life history</b> I. R. Bradbury, B. Laurel, P. V. R. Snelgrove, P. Bentzen & S. E. Campana	1803
<b>Can prey exhibit threat-sensitive generalization of predator recognition? Extending the Predator Recognition Continuum Hypothesis</b> M. C. O. Ferrari, F. Messier & D. P. Chivers	1811
<b>Cuckoo–hawk mimicry? An experimental test</b> N. B. Davies & J. A. Welbergen	1817

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science

Registered Charity No 207043
