

Review articles

- Reactive oxygen species as universal constraints in life-history evolution** 1737
D. K. Dowling & L. W. Simmons

Research articles

- Looking on the bright side: biased attention and the human serotonin transporter gene** 1747
E. Fox, A. Ridgewell & C. Ashwin
- Ecological selection pressures for C₄ photosynthesis in the grasses** 1753
C. P. Osborne & R. P. Freckleton
- Temporal mechanisms of multimodal binding** 1761
D. Burr, O. Silva, G. M. Cicchini, M. S. Banks & M. C. Morrone
- Angiosperm leaf vein evolution was physiologically and environmentally transformative** 1771
C. K. Boyce, T. J. Brodribb, T. S. Feild & M. A. Zwieniecki
- Distinguishing epidemic waves from disease spillover in a wildlife population** 1777
M. E. Craft, E. Volz, C. Packer & L. A. Meyers
- Foam nest components of the túngara frog: a cocktail of proteins conferring physical and biological resilience** 1787
R. I. Fleming, C. D. Mackenzie, A. Cooper & M. W. Kennedy
- Where is the light? Bayesian perceptual priors for lighting direction** 1797
J. V. Stone, I. S. Kerrigan & J. Porrill
- Colimitation of a freshwater herbivore by sterols and polyunsaturated fatty acids** 1805
D. Martin-Creuzburg, E. Sperfeld & A. Wacker
- A new long-necked 'sauropod-mimic' stegosaur and the evolution of the plated dinosaurs** 1815
O. Mateus, S. C. R. Maidment & N. A. Christiansen
- Compensatory mutations are repeatable and clustered within proteins** 1823
B. H. Davis, A. F. Y. Poon & M. C. Whitlock
- Network-based diffusion analysis: a new method for detecting social learning** 1829
M. Franz & C. L. Nunn
- We age because we grow** 1837
H. S. Kaplan & A. J. Robson
- Decline in the frequency and benefits of multiple brooding in great tits as a consequence of a changing environment** 1845
A. Husby, L. E. B. Kruuk & M. E. Visser
- Birth season glucocorticoids are related to the presence of infants in sifaka (*Propithecus verreauxi*)** 1855
D. K. Brockman, A. K. Cobden & P. L. Whitten
- Inducible defences as key adaptations for the successful invasion of *Daphnia lumholtzi* in North America?** 1865
K. Engel & R. Tollrian
- Female mate choice across spatial scales: influence of lek and male attributes on mating success of blue-crowned manakins** 1875
R. Durães, B. A. Loiselle, P. G. Parker & J. G. Blake
- Temperature, but not pH, compromises sea urchin fertilization and early development under near-future climate change scenarios** 1883
M. Byrne, M. Ho, P. Selvakumaraswamy, H. D. Nguyen, S. A. Dworjanyan & A. R. Davis
- Can fertility signals lead to quality signals? Insights from the evolution of primate sexual swellings** 1889
E. Huchard, A. Courtiol, J. A. Benavides, L. A. Knapp, M. Raymond & G. Cowlshaw
- Predation risk as a driving force for phenotypic assortment: a cross-population comparison** 1899
D. P. Croft, S. K. Darden & G. D. Ruxton
- Concealed by conspicuousness: distractive prey markings and backgrounds** 1905
M. Dimitrova, N. Stobbe, H. M. Schaefer & S. Merilaita
- Poor horse traders: large mammals trade survival for reproduction during the process of feralization** 1911
S. Grange, P. Duncan & J.-M. Gaillard
- Trade-offs between activity and thermoregulation in a small carnivore, the least weasel *Mustela nivalis*** 1921
K. Zub, P. A. Szafrńska, M. Konarzewski, P. Redman & J. R. Speakman

Founded in 1660, the Royal Society is the independent scientific academy of the UK, dedicated to promoting excellence in science

Registered Charity No 207043
