PROCEEDINGS AND PHILOSOPHICAL TRANSACTIONS OF THE ROYAL SOCIETY

Notice to contributors

The Royal Society welcomes suitable communications for publication in its scientific journals: papers estimated to occupy up to 24 printed pages are considered for the *Proceedings* and longer papers and those with numerous or large illustrations for the *Philosophical Transactions*.

Detailed advice on the preparation of papers to be submitted to the Society is given in a leaflet available from the Executive Secretary, The Royal Society, 6 Carlton House Terrace, London SW1Y 5AG. The 'Instructions to authors' are also printed in every fifth volume of the *Proceedings* A and B (volume numbers ending in 0 or 5). The basic requirements are: a paper should be as concise as its scientific content allows and grammatically correct; standard nomenclature, units and symbols should be used; the text (including the abstract, the list of references and figure descriptions) should be in double spaced typing on one side of the paper. A leaflet giving detailed advice on the preparation of illustrations is available from the Executive Secretary; diagrams should be expertly drawn at about twice the proposed final size, preferably with lettering in the correct style but if this is not possible the lettering should be inserted not on the original drawings but on a set of copies; where photographs are essential the layout should be designed to give the most effective presentation.

The initial submission of a paper must be through a Fellow or Foreign Member of the Society, but subsequent correspondence will be conducted direct with the author. The latest lists of Fellows and Foreign Members are to be found in the current edition of the *Year Book of the Royal Society*. A copy of 'Notes for the guidance of Fellows communicating papers' is available from the Executive Secretary. In the event of any difficulty, an author is invited to seek the assistance of the Executive Secretary.

No page charge is levied, and the first 50 offprints of a paper are supplied to the author gratis.

The Editors particularly welcome short communications to *Proceedings*; as far as possible they will be given expeditious treatment both in consideration and in printing, and this will be facilitated if a paper is submitted with a firm recommendation by a Fellow.

Associate Editors: series A, Mathematical and Physical Sciences

EXTENSIONAL TECTONICS ASSOCIATED WITH CONVERGENT PLATE BOUNDARIES

A DISCUSSION ORGANIZED BY F. J. VINE, F.R.S., AND A. G. SMITH

(Discussion held 19 and 20 March 1980 – *Typescripts received 19 September 1980*)

[Three plates; eleven pullouts]

CONTENTS

	PAGE
F. J. VINE, F.R.S., AND A. G. SMITH	
Introduction	219
J. K. WEISSEL	
Magnetic lineations in marginal basins of the western Pacific	223
<i>Discussion:</i> H. G. READING, L. STEGENA	246
P. F. BARKER AND I. A. HILL	
Back-arc extension in the Scotia Sea	249
<i>Discussion:</i> M. F. OSMASTON	262
J. TARNEY, A. D. SAUNDERS, D. P. MATTEY, D. A. WOOD AND N. G. MARSH	
Geochemical aspects of back-arc spreading in the Scotia Sea and western Pacific	263
<i>Discussion:</i> D. ROBERTS, L. STEGENA	284
A. Y. SHARASKIN, N. A. BOGDANOV AND G. S. ZAKARIADZE	
Geochemistry and timing of the marginal basin and arc magmatism in the Philippine Sea	287
<i>Discussion:</i> M. F. OSMASTON	296
J. A. PEARCE, T. ALABASTER, A. W. SHELTON AND M. P. SEARLE	
The Oman ophiolite as a Cretaceous arc-basin complex: evidence and implications	299
I. W. D. DALZIEL	
Back-arc extension in the southern Andes: a review and critical appraisal	319
J. L. MERCIER	
Extensional-compressional tectonics associated with the Aegean Arc: comparison with the Andean Cordillera of south Peru – north Bolivia	337
X. LE PICHON AND J. ANGELIER	
The Aegean Sea	357
<i>Discussion:</i> M. F. OSMASTON, L. STEGENA	372

	PAGE
L. ROYDEN AND J. G. SCLATER	
The Neogene intra-Carpathian basins	373
<i>Discussion: L. STEGENA</i>	381
F. HORVÁTH, H. BERCKHEMER AND L. STEGENA	
Models of Mediterranean back-arc basin formation	383
<i>Discussion: C. COULON</i>	402
P. MOLNAR, P. TAPPONNIER AND W.-P. CHEN	
Extensional tectonics in central and eastern Asia: a brief summary	403
MARY LOU ZOBACK, R. E. ANDERSON AND G. A. THOMPSON	
Cainozoic evolution of the state of stress and style of tectonism of the Basin and Range province of the western United States	407
I. EFFIMOFF AND A. R. PINEZICH	
Tertiary structural development of selected valleys based on seismic data: Basin and Range province, northeastern Nevada	435
