

Editorial Board

J. Michael T. Thompson, Editor

Department of Applied Mathematics and Theoretical Physics, Centre for Mathematical Sciences, University of Cambridge

Andrew J. Coates

Mullard Space Science Laboratory, University College London

A. Giles Davies

School of Electronic and Electrical Engineering, University of Leeds

Peter J. Dornan

Department of Physics, Imperial College

Freeman J. Dyson

School of Natural Sciences, Institute of Advanced Study, Princeton

Richard S. Ellis

Department of Astronomy, Caltech

Celso Grebogi

Centre for Applied Dynamics Research, University of Aberdeen

Judith Howard

Department of Chemistry, University of Durham

Giles Hunt

Department of Mechanical Engineering, University of Bath

Peter Kohl

University Laboratory of Physiology, University of Oxford

A. Jack Meadows

Department of Information Science, Loughborough University

Francis C. Moon

School of Mechanical Engineering, Cornell University

Peter Sammonds

Department of Earth Sciences, University College London

Gabor Stepan

Department of Applied Mechanics, Budapest University of Technology and Economics

Ian N. Stewart

Department of Mathematics, University of Warwick

Michael Tabor

Program in Applied Mathematics, University of Arizona

Heng Zhou

Department of Mechanics, Tianjin University

AIMS AND SCOPE

Each issue of *Phil. Trans. R. Soc. A* is devoted to a specific area of the mathematical, physical and engineering sciences. This area will define a research frontier that is advancing rapidly, often bridging traditional disciplines. *Phil. Trans. R. Soc. A* is essential reading for mathematicians, physicists, engineers and other physical scientists. As well as theme issues, the journal publishes papers from the Royal Society's mathematical, physical and engineering discussion meetings. For information on submitting a proposal for a theme issue, please consult the journal's website at www.pubs.royalsoc.ac.uk/piltransa
