NOTICE TO AUTHORS

Scope. *Philosophical Transactions* series B welcomes papers on any aspect of biological science. Authors may send their papers direct to the Society's Editorial Office, whose address is given below; it is no longer a requirement that papers be submitted through a Fellow or Foreign Member of the Society, although authors may do so if they wish. In general, papers for *Philosophical Transactions* B should normally be no longer than 25000 words (including allowances for references and figures). Longer papers will be considered exceptionally, and authors of such papers should consult the Editor before submission, preferably at an early stage in preparation.

Submission. Three copies of the typescript and figures are required, and originals of any figures should also be submitted. Papers should be prepared in accordance with the 'Instructions to authors' printed at the end of every volume of *Philosophical Transactions* B after volume 324 and available from the Editorial Office. Although editorial processing of papers on disc is available, in the first instance typescripts should be provided for the use of referees; discs should be made available only after acceptance and after consultation with the Editorial Office to ensure compatibility of format.

Publication. We aim to publish papers within five to seven months of receipt; to this end the cooperation of authors is requested in (i) informing the Editorial Office of change of address, (ii) responding promptly to referees' comments, and (iii) returning proofs as quickly as possible. From July 1990 the journal will be published monthly in a two-column format allowing flexibility of presentation; as the paper used will be suitable for the printing of both text and half tone illustrations, the grouping of figures into plates is not necessary, although in some cases the use of plates may be desirable.

Editorial address: Editorial Office, *Philosophical Transactions* B, The Royal Society, 6 Carlton House Terrace, London SW1Y 5AG.
