INDEX TO VOL. XCIX. (B)

Address of the President, 30th November, 1925, 107.

Azuma (Y.) and Hill (L.) Effects of Ultra-violet Radiation upon Involuntary Muscle, and the Supposed Physiological Interference of Visible Rays, 221.

*Bacillus radicicola*, life-cycle of, and relation to host plant (Thornton and Gangulee), 427.

Balls (W. L.) and Hancock (H. A.) Measurements of the Reversing Spiral in Cotton Hairs, 130.

Batten (L.) See Gregory and Batten.

Bayliss (Sir W. M.), obituary notice of, xxvii.

Beddard (F. E.), obituary notice of, xxxvi.

Bonney (T. G.), obituary notice of, xvii.

Brull (L.) and Eichholtz (F.) The Effects of Calcium and Potassium Ions on Urine Secretion as studied in the whole Animal, 57; The Secretion of Inorganic Phosphate by the Kidney.—II. Influence of the Pituitary Gland and of the Wall of the Third Ventricle, 70.

Burnett (W. A.) See Cathcart and Burnett.

Buston (H. W.) See Schryver and Buston.

Cathcart (E. P.) and Burnett (W. A.) The Influence of Muscle Work on Metabolism in Varying Conditions of Diet, 405.

Cavia, early development of (Maclaren), 230.

Cell-interior, pH and rH of, before and after fertilisation (Needham), 173; Cell-interior, oxidation—reduction potential of (Needham), 383.

Chlorocruorin pigment (Fox), 199.

Ciliary movement, mechanism of (Gray), 398.

Circulation, effect of light on (Harris), 28.

Cotton hairs, measurements of reversing spiral in (Balls and Hancock), 130.

Dendy (A.), obituary notice of, xxxiii.

Diabetic metabolism and exercise (Hetzel and Long), 279.

Eichholtz (F.) See Brull and Eichholtz.

Eichholtz (F.), Robison (R.) and Brull (F.) Hydrolysis of Phosphoric Esters by the Kidney *in vivo*, 91.

Embryonic tissues, studies on differentiation of (Strangeways and Fell), 340.

Erythrocytes, method of measuring the diameters of (Millar), 264.
Fell (H. B.) See Strangeways and Fell.
Fischer (E.) The Heat liberated by the Beating Heart, 326
Fox (H. M.) Chlorocruorin: a Pigment allied to Haemoglobin, 190.
Furusawa (K.) A Spirometer Method of Studying continuously the Gaseous Metabolism of Man during and after Exercise, 148; Muscular Exercise, Lactic Acid, etc.—Part XIII. The Gaseous Exchanges of Restricted Muscular Exercise in Man, 155.

Gamble (J. S.), obituary notice of, xxxviii.
Gemmill (J. F.), obituary notice of, xlv.
Gonadic structure and plumage characterisation in the fowl (Greenwood and Crew), 232.
Gray (J.) The Mechanism of Ciliary Movement.—V. The Effect of Ions on the Duration of Beat, 398.
Gregory (F. G.) and Batten (L.), a Critical Statistical Study of Experimental Data on the Effect of Minute Electric Currents on the Growth Rate of the Coleoptile of Barley, 122.

Hæmolysis, inhibition and acceleration of (Ponder), 461.
Hancock (H. A.) See Balls and Hancock.
Harris (D. T.) The Effect of Light on the Circulation, 28.
Harrison (J. W. H.) and Garrett (F. C.) The Induction of Melanism in the Lepidoptera and its Subsequent Inheritance, 241.
Heart, heat liberated by (Fischer), 326.
Heart-lung preparation, closed-circuit (Daly), 306.
Hetzel (K. S.) and Long (C. N. H.) The Metabolism of the Diabetic Individual during and after Muscular Exercise, 279.
Hill (L.) See Azuma and Hill.
Hines (H. J. G.), Katz (L. N.) and Long (C. N. H.) Lactic Acid in Mammalian Cardiac Muscle.—Part II. The Rigor Mortis Maximum and the Normal Glycogen Content, 20.

Innervation of muscle fibres (Katz), 1.
Insulin, effect on dextrose consumption of muscle (Best), 375.
Katz (L. N.) and Long (C. N. H.) Lactic Acid in Mammalian Cardiac Muscle.—Part I. The Stimulation Maximum, 8.
Katz (L. N.), Kerridge (P. T.) and Long (C. N. H.) Lactic Acid in Mammalian Cardiac Muscle.—Part III. Changes in Hydrogen-ion Concentration, 26.
Kidney, hydrolysis of phosphoric esters by (Eichholtz, Robison and Brull), 91; secretion of inorganic phosphate by (Brull and Eichholtz), 70.

Lactic Acid in cardiac muscle (Katz and Long), 8; (Hines, Katz and Long), 20; (Katz, Kerridge and Long), 26.
Long (C. N. H.) Muscular Exercise, Lactic Acid, etc.—Part XIV. The Relation in Man between the Oxygen Intake during Exercise and the Lactic Acid Content of the Muscles, 167. —- (See also Jetzel and Long; Katz, etc.; and Hines, etc.)

Martin (S.), obituary notice of, xliv.

Meiotic phase in mammals (Walker), 366.

Melanism in Lepidoptera, and inheritance (Harrison and Garrett), 241.

Metabolism and ultra-violet radiation (Campbell), 451.

Metabolism (gaseous) and exercise (Furusawa), 148, 155.

Metabolism, influence of muscle work on (Cathcart and Burnett), 405.

Metabolism of diabetic individual (Hetzel and Long), 279.

Muscular contraction, mechanism of (Garner), 40.

Muscular exercise, lactic acid, etc (Furusawa), 155 ; (Long), 167.

Obituary notices of Fellows deceased :-

Bayliss, Sir W. M., xxvii.
Beddard, F. E., xxxvi.
Bonney, T. G., xvii.
Dendy, A., xxxiii.

Gamble, J. S., xxxviii.
Geikie, Sir A., i.
Gemmill, J. F., xlv.
Martin, S., xliv.

Pituitrin, secretion in mammals (Verney), 487.

Ponder (E.) A Study of certain Forms of Inhibition and Acceleration of Haemolysis, 461.

Proteins, undescribed products of hydrolysis of (Schryver and Buston), 476.

Robison (R.) See Eichholtz, Robison and Brull.

Schryver (S. B.) and Buston (H. W.) The Isolation of some hitherto Undescribed Products of Hydrolysis of Proteins.—Part II., 476.

Sherrington (Sir C. S.) Presidential Address at the Anniversary Meeting, 30th November, 1925, 107.

Strangeways (T. S. P.) and Fell (H. B.) Experimental Studies on the Differentiation of Embryonic Tissues growing in vivo and in vitro.—I. The Development of the Undifferentiated Limb-Bud, 340.

Thornton (H. G.) and Gangulee (N.) The Life-cycle of the Nodule Organism, Bacillus radiicola (Beij.), in Soil and its Relation to the Infection of the Host Plant, 427.

Ultra-violet radiation and metabolism (Campbell), 451.

Ultra-violet radiation effects on involuntary muscle (Azuma and Hill), 221.

Urine secretion, effects of calcium and potassium ions (Brull and Eichholtz), 57.

Verney (E. B.) The Secretion of Pituitrin in Mammals, as shown by Perfusion of the Isolated Kidney of the Dog, 487.

END OF THE NINETY-NINTH VOLUME (SERIES B).
